

1st CLASS LINEMAN

Talquin Electric Cooperative, Inc. is seeking qualified candidates for the position of 1st Class Lineman at one of Talquin's Operations location (Quincy, Tallahassee, or Crawfordville, Florida). Education must be sufficient to enable individual to satisfactorily understand and carry out job responsibilities in an efficient, effective, and safe manner. A high school diploma or its equivalent is required. The candidate must have a valid Class "A" Florida commercial driver's license at all times. The candidate must have successfully completed the Cooperative's Apprenticeship Program for Journeyman Lineman, or its equivalent, as determined by the Cooperative. The candidate must be able to charge-out and credit-in material from the staking sheets. The candidate must possess thorough knowledge of the National Electrical Safety Code, and the Cooperative Safety Manual. The candidate must be able to supervise and have knowledge of human relations. The candidate must have a thorough knowledge of the construction, maintenance, and operation of electric transmission and distribution systems, including substations. The candidate must be able to pass Cooperative physical examination as well as pre-employment drug screen and background check. The candidate must live at a primary residence located within a 30 minute drive, as determined solely by management, of any Talquin Electric office facility.

RESPONSIBILITIES:

- A. Perform duties in a safe, satisfactory, competent and timely manner.
- B. Must be willing to perform the work of all positions subordinate to his/her own.
- C. Must be able to install lightning arrestors, circuit breakers, regulators, air break switches, sectionalizers, by-pass switches, and other types of special equipment.
- D. Must be able to act as Lineman Chief in his/her absence.
- E. Must be able to instruct subordinate positions in the proper work methods.
- F. Must be able to install and connect multi-phase transformer banks.
- G. Must be able to read electric circuit diagrams.
- H. Must be able to perform work on energized lines from a bucket, pole, or the ground.
- I. Must be able to do routine and emergency switching on lines and substations.
- J. Perform other related work as required.

Talquin offers an excellent benefits package and a compensation structure commensurate with qualifications and representative of the market.
