BACKFLOW TESTERS AND PLUMBERS IN TALQUIN'S SERVICE AREA

Below is a list of testers/plumbers that have provided Talquin with verification of their certification. It is your tester/plumber's responsibility to provide Talquin with a copy of the test form. There is no standard testing fee, so we recommend you contact several testers/plumbers for prices. The size of the backflow device, its location and the tester's travel time may influence the cost of the test. You may contact other qualified testers/plumbers; however, they must provide Talquin with their tester's certification.

When choosing a tester/plumber you may want to consider:

- A. The testing fee may or may not include the cost of a retest if a repair is made.
- B. The homeowner or a licensed plumber is required to make a repair if needed.

To assist in quality control, Talquin may check devices that have been tested and will disqualify any tester who falsifies test results. Please contact us at 850-562-2115 if you have any questions regarding this matter.

Testers/plumbers must return the test form to: Talquin Electric Cooperative, Inc., Backflow Program  
4852 Woodlane Circle, Tallahassee, FL 32303 | Fax: 850-562-2234
