Efficiency Upgrades Done the Smart Way

Joe Alexander
President

Tracy Bensley
General Manager

There's no time like the present for home upgrades that promote better efficiency, help you save energy and money, and increase the comfort of your home.

Installing a smart thermostat is one of the simplest ways to manage home energy use and keep electricity bills to a minimum. Smart thermostats are easy to install and allow you to control your heating and cooling system from your phone. You can purchase an ENERGY STAR®-certified smart thermostat for as low as \$100, which can save you 8% on annual heating and cooling costs, about \$50 per year. This upgrade will quickly pay for itself, and you'll gain insight into better ways to heat and cool your home.

In addition to incorporating smart technologies, sealing air leaks around your home is a simple, effective way to save energy and lower your bill. Applying new (or replacing old) weather stripping around doors and windows can instantly make your home more comfortable and reduce energy waste. Applying caulk to fill gaps can also improve

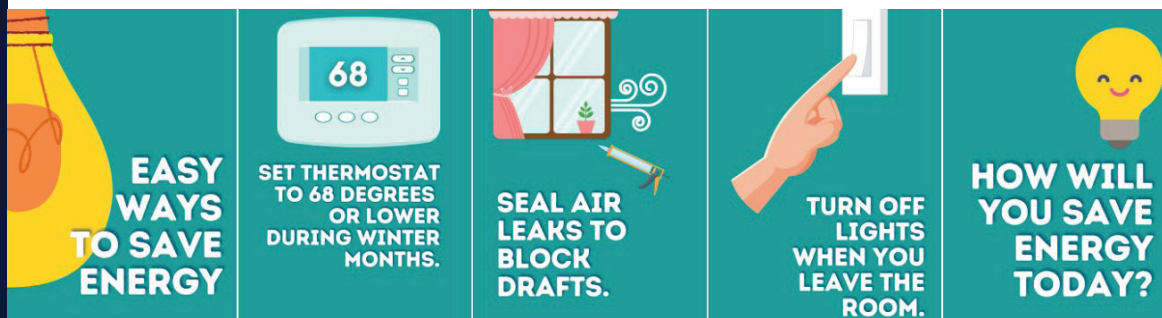

the seal of your home. Caulk can be applied to a variety of areas, including windows, doors, bathtubs, and sinks.

While spending a little now on upgrade projects can save in the future, there are ways to save now without the upfront cost just by altering your daily routine. Consciously shedding energy use can decrease your monthly bill with very little effort. Set your thermostat to 68 degrees in the winter and 78 in the summer when at home, turn lights off when not in use, only run the washer and dishwasher with full loads, hang-dry clothes to avoid dryer usage, and unplug appliances when not in use.

Of course, there are efficiency upgrades that are a bit pricier, but can make a big impact on energy use, like replacing old appliances with ENERGY-STAR® models or replacing old, leaky windows with new, energy-efficient windows.

If you're wanting to make your home more energy efficient but you're not sure where to start, you can easily view your usage on Talquin's web portal to gain insight on when you are using energy the most. Doing so can help you identify areas to boost efficiency, and then you can determine the projects you want to tackle first based on your budget and needs.

TIME-SAVING RECIPES

Taco Soup

Recipe from The Pioneer Woman: (<https://www.thepioneerwoman.com/foodcooking/recipes/a40410810/taco-soup-recipe/>)

Total Time: 35 minutes / Prep Time: 5 minutes / Cook Time: 30 minutes / Yield: 6-8 servings

Ingredients:

- | | |
|---|--|
| 1½ pounds ground beef | 1 4 ounce can green chiles |
| 1 yellow onion, chopped | 1 quart chicken broth |
| 3 cloves garlic, minced | 1 15 ounce can pinto beans, drained and rinsed |
| 1 jalapeño, chopped | 1 15 ounce can black beans, drained and rinsed |
| 2 14.5-ounce cans fire roasted tomatoes | 1 15 ounce can of corn, drained |
| 1 1 ounce packet taco seasoning | Grated cheddar cheese, for serving |
| Kosher salt, to taste | Avocado, for serving |
| Sour cream, for serving | |
| Cilantro, for serving | |

Instructions:

1. Heat a large Dutch oven over medium heat. Add the beef and onion then cook, stirring to break the beef into small pieces, until it is no longer pink and the onion is softened, 6 to 8 minutes.
2. Stir in the garlic, jalapeño, tomatoes, taco seasoning, green chiles, chicken broth, corn, pinto beans, and black beans. Bring to a boil over medium-high heat. Reduce the heat to medium-low, partially cover, and cook, stirring occasionally, until the flavors blend, about 20 minutes. Season with salt to taste.
3. Serve, topped with sour cream, chopped cilantro leaves, cheddar cheese, and avocado if you like.

One Pot Pasta with Tomato & Mascarpone Sauce

Recipe from Happy Veggie Kitchen: (<https://www.happyveggiekitchen.com/tomato-mascarpone-one-pot-pasta/>)

Total Time: 30 minutes / Prep Time: 10 minutes / Cook Time: 20 minutes / Yield: 5 servings

Ingredients:

- | | |
|----------------------------------|------------------------------------|
| 18 ounces dried fusilli | 5 ounces tomato paste |
| 1 tablespoon olive oil | 1 tablespoon balsamic vinegar |
| 1 medium red onion, chopped | 4 cups boiling water |
| 5 garlic cloves, crushed | A few handfuls of fresh basil |
| 1 tablespoon dried Italian herbs | 9 ounces fresh spinach |
| 2 teaspoon salt | 2 tablespoons butter |
| 2 cans chopped tomatoes | 3 heaping spoonful's of mascarpone |

Instructions:

1. In a large pot, add olive oil and gently sauté your onions until soft. Add the garlic, herbs, and sauté on very low heat for 1-2 minutes until fragrant. Add tomatoes, tomato paste, salt, and balsamic vinegar. Cook for 5 minutes, until bubbling. Add the fusilli along with the boiling water. The sauce will be very watery and runny, but don't worry - the pasta will absorb all the excess water as it cooks.
2. Bring to a boil, and then simmer for 10 to 12 minutes, stirring often, until the pasta has cooked and the sauce has thickened. If it becomes too dry, add water. Add the spinach, basil, and butter, and stir over low heat until the spinach is cooked down. Stir in the mascarpone until melted. You should have a deliciously thick, creamy sauce.
