The Talquin Electric Cooperative, Inc. and Talquin Water & Wastewater, Inc. Boards regularly schedule their workshops on the 1st Monday of each month and meetings on the 3rd Wednesday of each month at the Headquarters' Office in Quincy, FL at 6:30 PM. If necessary, an Executive Session may be held in conjunction with any regular meeting, special meeting, or workshop. Notice of any changes will be listed at www.TalquinElectric.com/About/Board-Meetings-Workshops/

THE COOPERATIVE DIFFERENCE

Joe Alexander President

Tracy Bensley General Manager

October marks a special time for Talquin as we celebrate National Cooperative Month. Electric cooperatives like Talquin illuminate unique qualities that set them apart from traditional utilities. Rooted in a commitment to local decision-making, community engagement, and service excellence, electric cooperatives exemplify a distinct model that places Members at the heart of operations.

Talquin's identity as a cooperative is grounded in its local roots and community-driven decision-making. Unlike conventional utilities, Talquin is shaped by a Board of Trustees elected by Members. This democratic structure ensures that Members have direct input in how the Co-op operates. What truly differentiates Talquin is the Members - those who rely on the Co-op's services for their electricity, water, and wastewater needs. Every utility bill paid by Members goes back into the community, funding improvements to the local system and strengthening service reliability. This economic collaboration highlights the cooperative's commitment to serving the needs of Members, not external shareholders.

As a cooperative, involvement in community events, disaster preparedness initiatives, and educational programs

speaks volumes about the dedication and concern for the community. By supporting local charities and engaging with the community in various ways, the Cooperative showcases a mission to actively participate in local life beyond just being a utility provider. One noteworthy initiative is the Youth Tour program, which offers high school juniors an invaluable glimpse into the cooperative and government worlds while providing them with scholarships for higher education pursuits. This program embodies the Cooperative principle of education and aligns with Talquin's commitment to promoting the next generation of leaders.

Talquin's dedication to Member satisfaction is evident through a commitment to open communication. The cooperative offers various platforms for Members to voice their opinions, suggestions, and feedback. The annual survey allows Members to contribute their insights, guiding the Co-op's efforts to refine programs and services. Additionally, a new initiative was launched this year to engage with our Members in person. "Talk with Talquin" serves as a space for Members to gain information on current projects and events in their local communities and creates open dialogue for Members to engage with the Board of Trustees, General Manager and other key staff members. Through these channels, Members can provide their feedback, ideas, and concerns, creating a continuous loop of improvement and a strong connection with the community.

Electric cooperatives stand out as a symbol of hope for stability in a world characterized by economic uncertainty and supply chain challenges. Talquin's commitment to maintaining local jobs, offering at-cost utilities, and providing unparalleled service remains steadfast, with an emphasis on keeping costs low and ensuring that Members get the maximum value from their cooperative. This collaborative approach benefits individual households and supports the cooperative's commitment to equity and inclusiveness with the Membership.

Talquin's growth over the years has not altered its fundamental values or mission to serve the community. The cooperative's dedication to Members is a testament to the profound impact that a value-driven, Member-focused approach can have on shaping a brighter, more comprehensive future for all. Now that's the Cooperative Difference!

Dr. David Wright

With great sadness, we share with Members that Talquin Trustee Dr. David Wright passed away on July 14, 2023. A resident of Gadsden County for 45 years, Dr. Wright, 74, served with devotion on the Board of Trustees since 2009. Although he represented Talquin Members in District 2, he was very dedicated to serving all of the Members of Talquin during his time on the Board. He was a faithful husband, a loving father to 10 children, and a doting grandfather to 18 grandchildren. Dr. Wright will be missed by many.

Scam Calls

Please be aware that scammers can "spoof" Talquin's phone number so the caller ID displays a Talquin phone number. Such phone calls are not authorized or affiliated with Talquin; unfortunately, we cannot prevent this from happening.

- Talquin personnel drive clearly marked vehicles and provide Talquin issued ID, if requested.
- Never give personal information to an unknown caller or visitor.
- Demands for immediate payment by wire transfer, cryptocurrency, gift cards or cash reload cards should immediately raise red flags.
- If you think you've been contacted by a scammer falsely representing the co-op, please report it to the local law enforcement.
- Talquin will never call and ask for personal identifiable information.

Backflow Preventers

Talquin is responsible for implementing a Cross Connection Control Program as required by the Florida Department of Environmental Protection (FDEP) and the Federal Government's 1974 Safe Drinking Water Act. Talquin water service Members are responsible for having their backflow preventer tested and, if necessary, repaired. Having the backflow preventer tested will reveal any malfunctions or leaks. A leaking backflow preventer will add to the monthly water bills.

Why do we need backflows? Backflow preventers help prevent contaminates from entering drinking water and protect the public water system from cross-connection from water usage beyond the meter.

Who needs backflows? FDEP requires all commercial properties and residents with irrigation systems to have backflow preventers installed. The device is commonly located at your property line adjacent to your water meter and above the ground.

How often should backflow preventers be tested? Commercial backflow devices should be tested annually, and residential backflows should be tested every other year by a certified backflow technician.

A blank backflow test report and list of testers can be found at www.TalquinElectric.com/Resources/

Please check out FDEP website for more information: https://floridadep.gov/

Talquin Services

Talquin has several services to help manage your utility account(s) and pay your bill. Find the perfect fit for you!

- Talquin Website: View and pay bills, monitor usage, and more.
- Talquin App: Download on your mobile device for easy access.
- Automatic Payment: Automatic credit card and bank draft services.
- Electronic Billing notification: Go paperless and/or receive an email when your bill is available.
- Pay by Phone: 850-627-9666 (English or Spanish) automated, 24/7, credit cards and checks accepted.
- Postal Service Mail: Send check or money order (no cash) to P.O. Box 1679, Quincy, FL 32353-1679.
- Talquin Member Services Drive-Thru: Five locations with full-service drive-thru windows. (Monday Friday, 8:30 AM 5:00 PM, Closed for lunch 1:00 PM 2:00 PM). Drop Boxes can be found at each location for after-hour payments. No cash is accepted.
- **PrePaid Electric Account:** With PrePaid, you are in control. Low deposit, no late fees, and no disconnect or reconnect charges!
- Levelized Billing (electric accounts only): Levelized is a "rolling average" of your electric usage for the most recent 13 months.

Visit our website at <u>www.TalquinElectric.com</u> or ask any Member Services Representative for more information.

THE POWER OF PREPARATION

September is National Preparedness Month. Even at a modest level, being prepared for severe weather and other emergencies can help keep you and your family safe. Here are a few practical tips to help you get started.

- MAKE A PLAN Talk to your friends and family about how you will communicate after a disaster.
- 2. BUILD A KIT Gather supplies that will last several days after a disaster for everyone in your home. Don't forget to consider each person or pet's unique needs in case you must evacuate quickly.
- NATIONAL PREPAREDNESS MONTH
- **3. LOW-COST, NO-COST PREPAREDNESS** Limit the impact of disasters on you and your family. Know the risks of disasters in your area. Learn how to strengthen your home in the face of storms and other common hazards. Check your insurance coverage to make sure it is up-to-date.
- **4. TEACH YOUTH ABOUT PREPAREDNESS** Talk to your kids about preparing for emergencies and what to do in case you are separated. Reassure them by providing information about how they can get involved.

Four Ways to Boost Your Cyber Hygiene

In today's digital world, cyberattacks are nothing new. When we hear about massive data breaches, it can feel overwhelming and lead us to think we're powerless to stop cyber criminals. Fortunately, there are simple steps we can take to safeguard our devices and data.

See Yourself in Cyber.

October is Cybersecurity Awareness Month

Improve your cyber hygiene by doing these four things:

- Enable multi-factor authentication
- Use strong passwords and a password manager
- Update software regularly
- Recognize and report phishing attacks

Supporting Our Community

We know community support is important to our Members, as identified in the 2022 Member Survey. As one of the seven cooperative principles, Concern for Community, we value the opportunity to partner with organizations within the areas we serve.

Since 2012, CoBank, one of Talquin's lenders, has partnered with cooperatives nationwide in their Sharing Success program to provide \$4,000,000 to charitable organizations in rural areas. Talquin applied for grants again this year, and all were awarded!

The recipients of this year's grants were the American Heart Association (\$2,500), United Way of the Big Bend (\$4,500), and DISC Village, Inc. (\$3,000).

Join us to thank these organizations for their fantastic work in our community. Talquin Electric Cooperative is proud to be able to help support them in continuing their missions!

Left to right: John Martin, Tracy Bensley.

The American Heart Association is the nation's oldest and largest voluntary organization dedicated to fighting heart disease and stroke. Heart disease is the No. 1 killer worldwide, and stroke ranks second around the globe. Their goal is a world free of cardiovascular diseases and stroke.

Left to right: Berneice Cox, Tracy Bensley.
United Way of the Big Bend (UWBB) is dedicated to supporting human service agencies in the Big Bend region, including Gadsden, Leon, Liberty, and Wakulla Counties. By bringing together donors, volunteers, businesses, nonprofits, community leaders, government, experts, and those in need, UWBB directly addresses challenges in the community.

Left to right: Jordan Cowart, Sabrina Johnson, Ryan Ribolzi, John Wilson, and Jennifer Travieso.

The primary mission of DISC Village is to promote the well-being of individuals, families, and those with whom they are closely associated and affected by alcohol and other drug use, crime, behavioral problems, and mental health disorders and to keep families together and bring families back together. The donation will be used primarily for treating individuals with substance and mental health abuse and rehabilitation in Leon, Liberty, Gadsden, and Wakulla counties. The Talquin Employee Picnic Committee was able to present a \$6,098.00 check to DISC Village through fundraising efforts by Talquin employees and with support from Co Bank's Sharing Success program.

WPCA Adjustment

Effective October 1, 2023, Talquin Electric will decrease the Wholesale Power Cost Adjustment from a charge of \$0.0000 to a credit of (\$0.0040), resulting in an overall decrease of \$4.00 per 1,000 kWh. This change does not impact water and wastewater charges.

Rate Adjustment

Talquin continuously evaluates the cost of service to ensure rates reflect the true cost to serve Members. Effective October 1, 2023, electric rates will be adjusted as shown in the table below. The primary reason for this rate adjustment is to support operating margins that have been impacted by increased operating costs (right-of-way maintenance costs, interest expense, etc.).

The impact of this adjustment to Members who use 1,000 kWh per month will be an increase of \$7.75 (or 5.6%) on the monthly bill. Rates for General Service Demand, General Service Large Demand, and Outdoor Lights are not being adjusted at this time. This change does not impact water and wastewater charges.

SYSTEM ACCESS FEE	Current Rate	New Rate
RS & GS - Single Phase RS & GS - Three Phase RPS - Single Phase Prepaid (Daily Rate)	\$35.00 \$50.00 \$1.36	\$40.00 \$55.00 \$1.50
ENERGY CHARGE (*charge per kWh)	Current Rate	New Rate
RS, RPS & GS First 1,000 kWh Over 1,000 kWh	\$0.10335 \$0.12495	\$0.10610 \$0.13225

How Will These Adjustments Impact My Bill?

The overall impact of the rate adjustment and WPCA reduction to Members who use 1,000 kWh per month will be an increase of \$3.75 (or 2.71%) on the monthly bill.

TRADING POST MISCELLANEOUS

Antique Butler's Desk;

American Empire design circa 1840. Ornate carvings, good condition. Call or text for photos. Appraised at \$2,400 in 2011. Asking \$2,000. 850-556-5006

Sentry fireproof safe, 15" x 12" x 11", like new, \$30. 850-228-2885

RYOBI 10-inch sliding compound miter saw with

LED for sale. Practically new. \$170.00 or make offer. Text 850-510-0261 if interested. Will supply a picture.

Cast Iron propane heater. Great for heating a barn or shed. Needs repair. FREE

Cheesy Ranch Chicken Pasta

Recipe from I Am Baker: (www.iambaker.net)

Yield: 8 Servings Prep Time: 5 Minutes Cook Time: 20 Minutes Total Time: 25 Minutes

Ingredients:

- 1 cup shredded chicken, cooked
- 1 package dry ranch seasoning mix
- 8 ounces of penne noodles, uncooked
- 3½ cups chicken broth
- 4 ounces cream cheese, room temperature
- 4 slices thick-cut bacon, cooked and crumbled
- 2 cups cheddar cheese, shredded
- tablespoon fresh parsley, chopped

Instructions:

In a small bowl combine shredded chicken and dry ranch seasoning (chicken mixture). Add the chicken broth, penne, and chicken mixture to a large Dutch oven over medium heat. Stir to combine and then bring to a boil. Reduce heat to low and then cover and cook for about 15 to 20 minutes or until the pasta is cooked to your preference. There should still be some liquid in the pot when the pasta is cooked. Add the cream cheese to the Dutch oven and stir until most of the cream cheese has melted. Add the bacon and shredded cheddar cheese. Stir until the cheese is fully melted. Garnish with parsley and serve.

Jalapeno Cheddar Cornbread

Recipe from I Am Homesteader: (www.iamhomesteader.com)

Yield: 12 servings Prep Time: 20 Minutes Cook Time: 50 Minutes Rest Time: 20 Minutes

Total Time: 90 Minutes

Ingredients:

- 2 large eggs, whisked
- ½ cup vegetable oil
- 1 cup buttermilk
- 1 cup cornmeal
- ½ cup all-purpose flour
- 2 teaspoons baking powder
- ½ teaspoon baking soda
- 1 teaspoon salt

- ½ teaspoon garlic powder
- 1½ cups sharp cheddar cheese, shredded
- 1 cup corn kernels
- 1/2 white onion, diced
- 2 medium jalapeno peppers, seeded and diced (approximately ½ cup)

Instructions:

Place a greased 8-inch cast-iron skillet into a cold oven. Preheat the oven to 350°F, allowing the skillet to heat up with the oven. Combine eggs, oil, buttermilk, and cornmeal in a medium bowl. Set aside. In a separate bowl combine flour, baking powder, baking soda, salt, and garlic powder. Whisk together until combined. Pour the egg mixture into the flour mixture and mix until well combined. Fold in cheese, corn, onion, and jalapeños. Carefully remove the skillet from the oven. Pour the batter into the hot skillet. Bake for 45-50 minutes or until golden brown. An inserted toothpick should come out clean or with a few dry crumbs. Let the cornbread cool for about 20 minutes before cutting and serving.

Meet The Team!

Vegetation Management

Pictured above, left to right; Charlie, Abby, Ray, Chad.

Meet the team with a wealth of knowledge and over 85 years of combined experience here at Talquin. Each member of the Vegetation Management Team plays a vital role in ensuring Members receive safe and reliable service. Maintaining power line right-of-way areas and working with line crews during emergencies helps minimize outages caused by vegetation.

We appreciate the Vegetation Management Team for their continued dedication and service to Talquin.
